STATE FORENSIC SCIENCE LABORATORY (SFL-02)

Digital Forensics & Cyber Analysis Division | FSL Ref: FSL/DIGITAL/2026/0612

[DEMO - FICTIONAL LABORATORY REPORT]

Forwarding Authority:	Demo Police Station, Pune (Ref: Case 245/2026)	**Date Received at Lab:**	17-October-2026 11:30 IST
Tamper Bag Number:	SEB-7821-DEMO (Seal Intact)	**Device Examined:**	OnePlus 11R (Victim Priya Demo)
IMEI / Serial:	864902058192019 / SN: OP11R-DEMO	**Operating System:**	OxygenOS 14 (Android 14)

Forensic Extraction Methodology:

The mobile device was unsealed in the clean digital forensics enclosure. Physical Faraday isolation maintained. Full bitstream logical and physical extraction performed using certified forensic acquisition tool (UFED v8.4.1). Extraction output verified against bitstream acquisition hash without write-back alteration.

Key Recovered Telecommunication Artifact:

Artifact ID:	MSG-EXTRACTION-ITEM-041
Application / Source:	WhatsApp Messenger (Instant Messaging Database: msgstore.db)
Sender Contact:	+91-98202-DEMO (Priya Demo - Victim)
Exact Timestamp:	**14-Oct-2026 23:30:19 IST**
Recovered Message Content:	***"Who is at the door?"***
Delivery Status:	Sent from device; two checkmarks confirmed on network server.

Forensic Conclusion & Significance:

Forensic timeline reconstruction establishes active user interaction on victim Priya Demo's device at 23:30:19 IST. This critical finding corroborates gate camera surveillance logs confirming an authorized entry into the building prior to 23:30. Digital extraction image preserved under certified evidence archive hash.
